

Here the filter is working, but as you can see on all blue “X’s” below each campaign there isn’t EPC or Popularity

The screenshot shows the 'All Campaigns' dashboard with a grid of 12 campaign cards. Each card includes a brand logo, campaign name, earning potential, and a monthly rate. A 'Filter Options' modal is open, showing 'EPC' and 'Popularity' filters. Blue 'X' marks are visible below each campaign card, indicating missing data for EPC or Popularity.

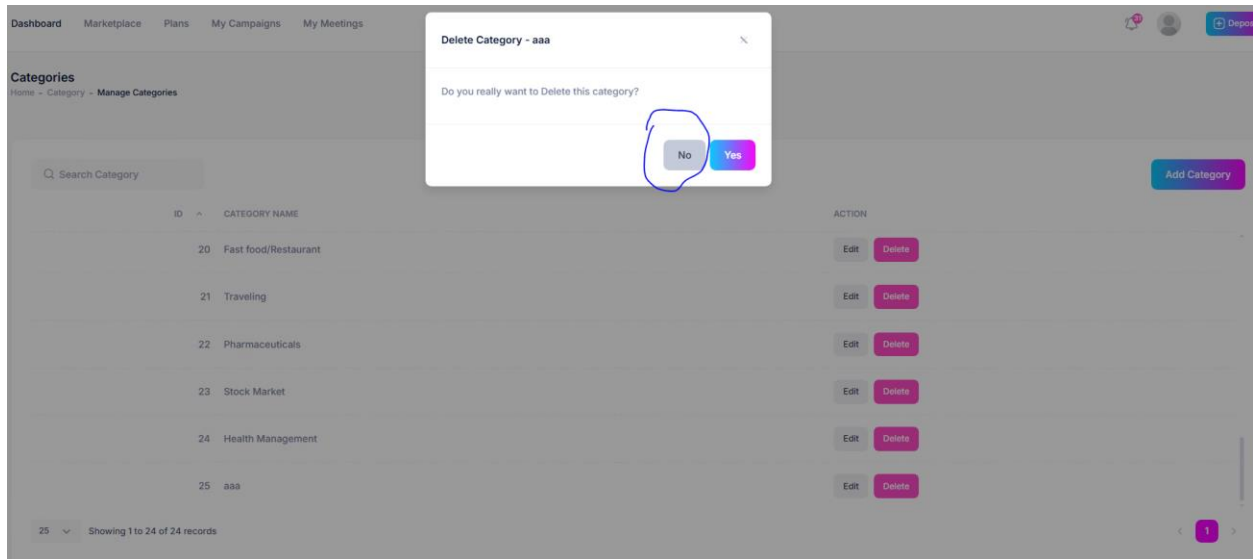

ID	Campaign Name	Earning Potential	Monthly Rate
#10	Hey Jude adidas	Earning Upto €300	monthly rate of 2.5%
#11	Hewlett-Packard	Earning Upto €300	monthly rate of 2.5%
#12	Amazon	Earning Upto €300	monthly rate of 2.5%
#13	Alibaba Group Holding Ltd.	Earning Upto €300	monthly rate of 2.5%
#14	Mercedes-Benz	Earning Upto €300	monthly rate of 2.5%
#15	Bayerische Motoren Werke AG	Earning Upto €300	monthly rate of 2.5%
#16	Netflix	Earning Upto €300	monthly rate of 2.5%
#17	Disney+ Streaming Service	Earning Upto €300	monthly rate of 2.5%
#18	HBO MAX	Earning Upto €300	monthly rate of 2.5%
#19	Seven & I Holdings Co.	Earning Upto €300	monthly rate of 2.5%
#20	TESCO	Earning Upto €300	monthly rate of 2.5%
#21	IQOS	Earning Upto €300	monthly rate of 2.5%

You can add here a popularity box so then above will work

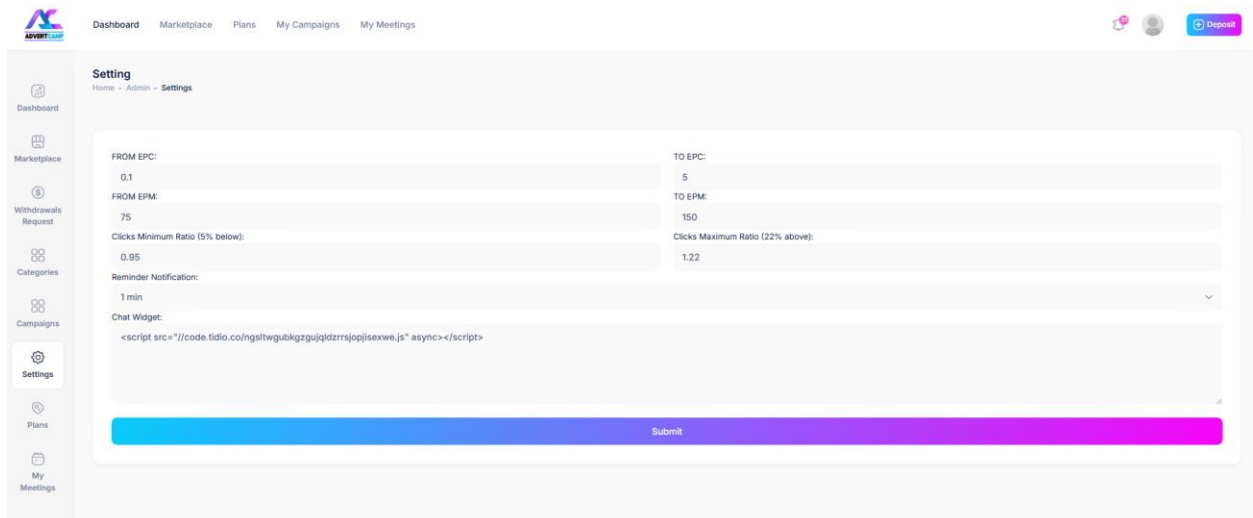

The screenshot shows the 'Add or Edit Campaign' form. The form includes fields for Name, Category, Campaign Image, Keywords, EPC, CPM, CTR, Google Trend Code, and Description. A blue 'X' mark is visible next to the 'Google Trend Code' field.

Field	Value
Name	Campaign Name
Category	Select Category
Campaign Image	Choose File
Keywords	Enter Keyword
EPC	Enter EPC
CPM	Enter CPM
CTR	Enter CTR
Google Trend Code	Google Trend Code
Description	Campaign Description

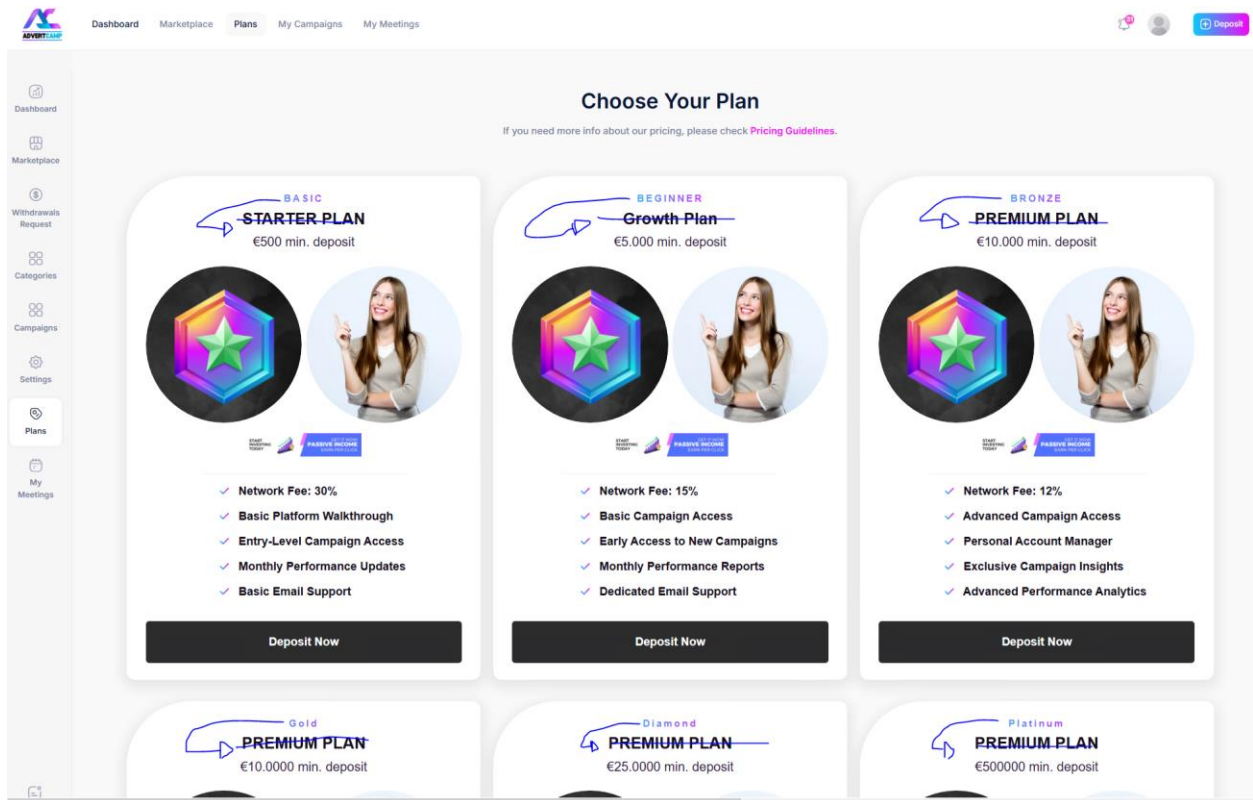

The NO button doesn't work

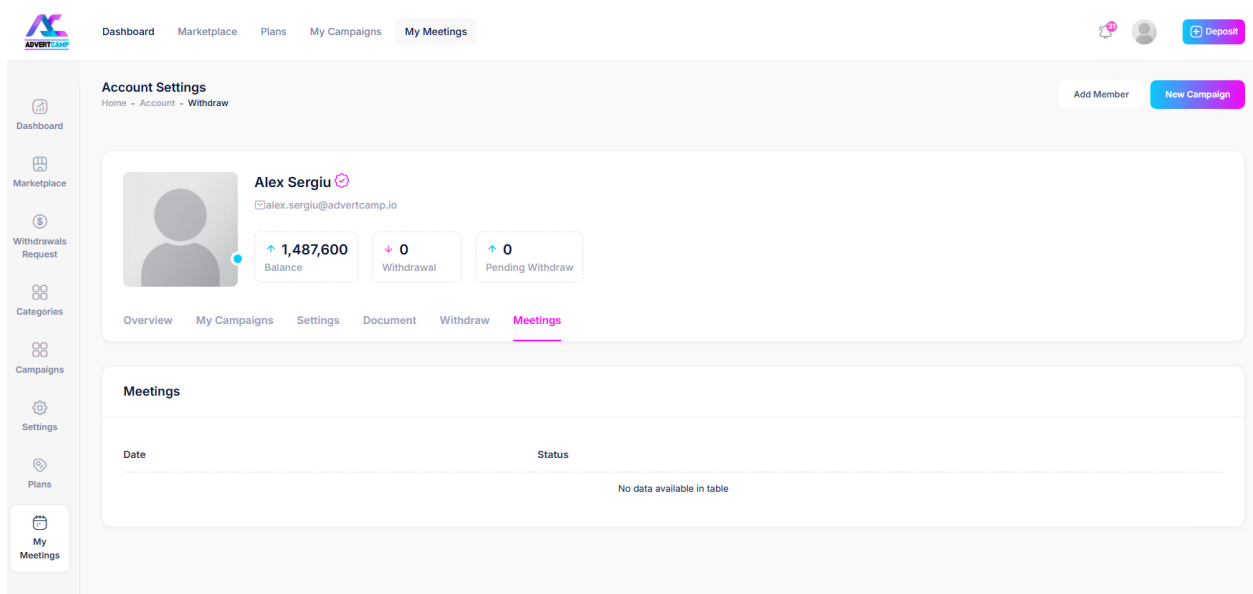

Here please make a test to make sure that when we change the numbers it will automatically update at the frame chosen: EX: 1-5 EPC every 3h or 5-19 EPC every 5min, etc...

Here you must change all the plans, remove what is written in black and to remain the only the name of the plan on the same colors but of course more bold

Here we need to make sure that the meetings work properly, that the agent and client receive the notification and it is added for each of them on both sides and the meeting should send automatically an email to both side once again

Here the LIVE campaigns are not being counted, neither the clicks as the campaign is running and is live
